### 14. Material Litigation

### 15. Segment Reporting

No segmental analysis is prepared as the Group is primarily engaged in the manufacture and sale of cigarettes and other tobacco products. The Group's management team review the financial information as a whole for decision making.

### 16. Material Changes in the Quarterly Results as Compared with the Preceding Quarter

The Group registered market share decline from 54.5% in the second quarter of 2017 to 53.9% in the third quarter of 2017. Dunhill, the biggest Premium brand in legal market, registered 38.4% market share in the third quarter of 2017 (-0.6% versus previous quarter). The decline is mainly due to the prevailing high level of illegal cigarette incidence at 56.1% as of August 2017 (Source: Consumer Track by Kantar Research Agency) as well as the growth of a lower price segment within the legal market.

Within Aspiration Premium brands, Peter Stuyvesant and Pall Mall recorded a total market share of 11.7% as of the third quarter of 2017, maintaining leadership in this segment for the 7<sup>th</sup> consecutive month. This achievement was largely attributed to Peter Stuyvesant's solid growth trajectory with a 7.6% share of market as of third quarter of 2017, holding steadily since second quarter of 2017.

As a result, volumes decreased by 1.7% versus second quarter of 2017, translating into revenue and gross profit reduction of 2.2% and 1.8% respectively when compared to the preceding quarter. However, the Group's gross margin continued to improve for the third consecutive quarter reaching 36.5% in the third quarter of 2017. This was the result of the full implementation of the Group's sourcing change from local manufacturing to importation model.

Operating expenses during the third quarter of 2017 were 6.9% higher than preceding quarter. This was primarily attributed to the pre-spend on marketing investment committed behind Rothmans, which was launched in the first week of October 2017.

During the third quarter of 2017, the Group has also recorded restructuring expenses of RM2.0 million which consisted of on-going cost of the project and outplacement programs.

As a result, Profit from Operations in the third quarter of 2017 declined 4.2% (RM8 million) when compared to the second quarter of the same year.

### 17. Review of Performance

The Group's Domestic and Duty Free volumes for September 2017 year to date, declined at 15.3% when compared to the same period of last year.

Illegal cigarettes incidence for September year to date, has increased from 51% in 2016 to 56.1% as of August 2017. This was driven by the price gap between legal and illegal cigarettes and current macroeconomic factors that are impacting consumer spending power.

Since the first half of 2017, the Group's volumes have been on a recovery trend. However this trend was interrupted in the third quarter of 2017, mainly due to the market dynamics within the illegal cigarettes segment and the recent growth of lower price segment within the legal market.

Revenue, for September 2017 year to date, declined 21.0% (RM 614 milion) when compared to the same period of last year, in line with volume decline and the cessation of contract manufacturing for exports as of 31<sup>st</sup> December 2016. This led to a Gross Profit deterioration of 18.8% (RM188 million) versus the same period of last year.

Operating Expenses for the September 2017 year to date period was 17.0% (RM54 million) lower than the same period last year. This was attributed to overhead savings from cost base

transformation initiatives the Group has undertaken, lower recharges from related entities, rental income from the sub-lease of the unutilised space currently tenanted by the Group and timing of spends.

In relation to the cessation of the manufacturing operations announced on 17<sup>th</sup> March 2016, the Group has further recorded a one-off restructuring expenses of RM7.9 million as of year to date September of 2017 which consisted of on-going cost of the project, outplacement programs and one off expenses associated with the storage and transfer of unprocessed leaf and raw materials.

As a result of the above, for September 2017 year to date, the Group registered a decline of 9.4% (RM57 million) and 4.7% (RM20 million) in Profit from Operations and Profit after Tax respectively, when compared to the same period of last year.

### 18. Events Subsequent to the End of the Period

There are no other material events subsequent to the end of the financial period under review that have not been reflected in the quarterly financial statements.

### 19. Seasonal or Cyclical Factors

The results of the Group are generally impacted by changes in excise typically announced annually during National Budget.

### 20. Future Year's Prospects

The Group remains concerned with legal volumes continuing to be impacted by the current high incidence of illegal cigarette trade. The outlook for the remaining period of 2017 and 2018 will be very much dependent on the recovery of the legal market.
